3D Printing Chanukah Gift Guide

2025

Hi! Welcome to Cookiecad's Chanukah 3D Printing Gift Guide — a free resource created collaboratively by the Cookiecad community for makers, families, and creative dreamers who want to bring light, love, and handmade joy to the Festival of Lights.

This guide is designed to help you craft meaningful, personalized Chanukah gifts right from your home. Whether you're creating a dreidel or dreidel launcher, a custom cookie cutter for baking, or a unique menorah or any other Chanukah keepsake, this guide will show you how to get started, spark your creativity, and make every print feel special.

The world of 3D printing is evolving fast, opening up endless ways to design, personalize, and share what you make. You don't need to be an engineer or an artist — just curious and willing to experiment. By the end of this guide, you'll have the confidence and inspiration to design and print your own Chanukah creations — gifts that celebrate tradition, creativity, and the joy of making something by hand.

Our intention is to empower makers of all levels with the knowledge and inspiration to create thoughtful, personal Chanukah gifts — and to show how 3D printing can bring more light, imagination, and connection into the holiday season.

Eight Nights of Chanukah Calendar

Created By: Megan at Cookiecad

A Chanukah Gift Calendar for the 8 days of festivities!

Inspired by family and community, each drawer is a representation of the love our families bring us and the joys we receive everyday. This model is fully 3D printed without supports.

It's printed in parts and requires no assembly. Simply print each section in your desired colors and create the cutest little town. Each drawer, labeled 1-8 is meant to store a cute gift, money, toy, candy, or dreidel and is to be opened one night at a time.

Dreidel and Launcher

2.

Created by:@MichaelF569299

This 3D printable dreidel launcher prints with almost no support, there is one tiny piece that needs to be removed after printing to allow the launcher to fit inside the handle.

This design makes spinning a dreidel as easy as can be! Compete with a few chocolate gelt this Chanukah and be sure to win the pot against your family and friends.

Print-in-Place Twisty Puzzle - Dreidel

Created By: @3DPrinty

This dreidel shaped puzzle may not spin so well, but it will keep you busy for hours.

This amazing design prints in place without suppers, just print the base and the handle separately, insert the handle to get solving.

Optional letters print separately and can be glued into place. Challenge everyone you know this Chanukah!

5. Spinning Dreidel Headband

Created By: @Adam

FREE DOWNLOAD

Not only does this dreidel headband looks super cute, but if you unscrew it off the headband, it actually spins!

Look festive and be prepared for any dreidel game at your Chanukah party.

And yes, it spins while on the headband as well. The model comes with the option for one or two dreidels.

Foldable Dreidel

Created by:@Roy_136127

6.

A folding Dreidel, perfect to hide your treats!

This folding Dreidel snaps together and unfolds to reveal the treats inside.

(If you're looking to play a game we recommend the rounded end!)

Chanukah Tic Tac Toe

8

Created By: Megan at Cookiecad

Add an extra level of festivity with this Chanukah themed tic tac toe design you can 3D print for yourself!

Print the pieces in the same color, or two different colors and let the games begin!

The board includes a drawer to store your pieces when you are on the go. The whole design prints without supports, just choose your favorite colors and get printing!

FREE DOWNLOAD

9. Menorah Playset

Created By: MrGlass

This design is so cute for kids. Print each piece without supports and let the kids light their own Menorah over and over again!

We used a gradient the print the flames to get a cool almost realistic effect. This model has 2 versions.

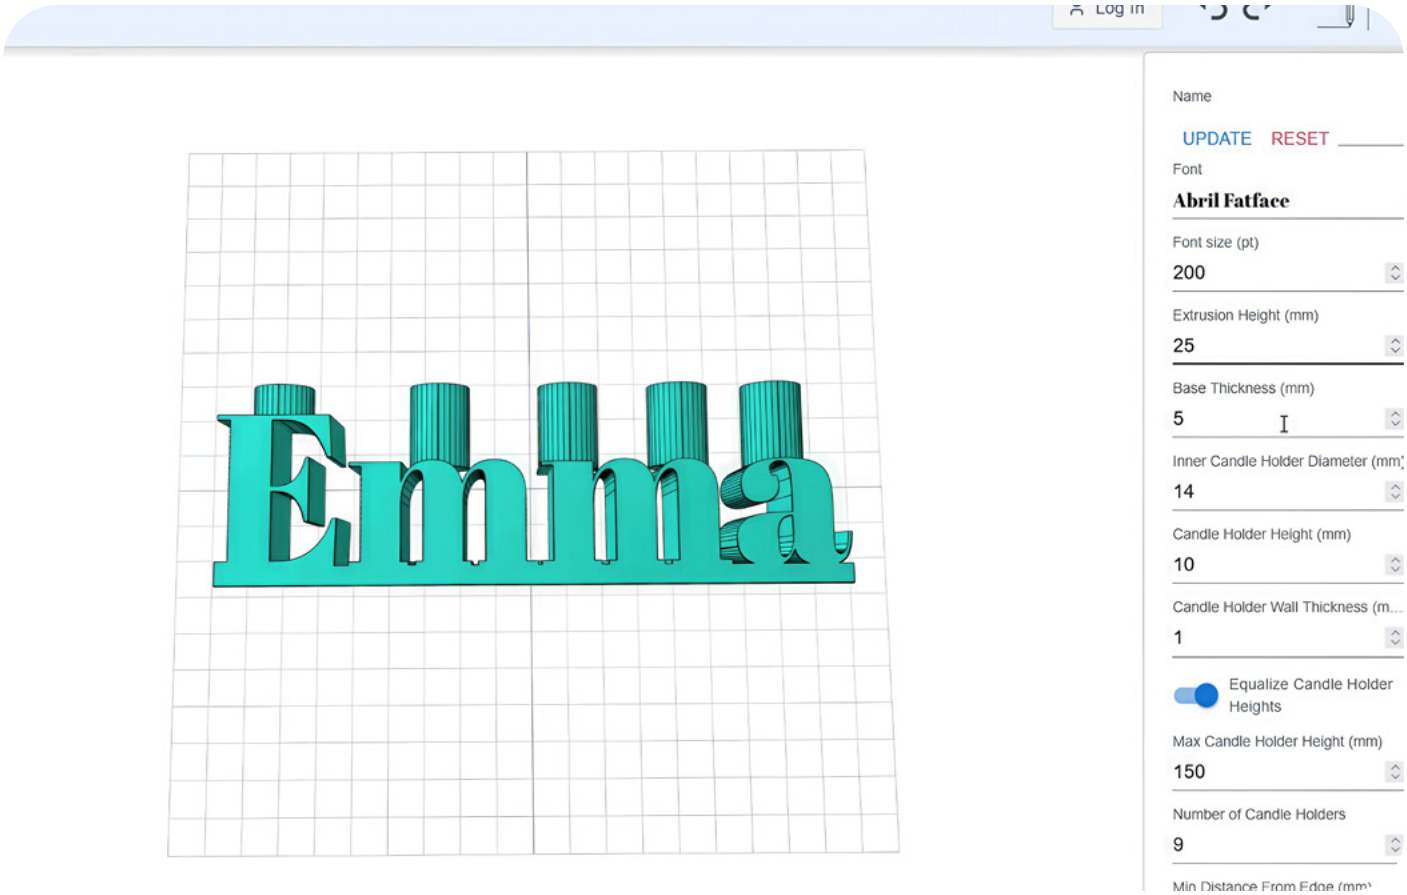

We recommend scaling the full model down to at least 75% to fit most printer beds.

Need something more customizable for your loved ones or want to make more memories?

Check out the customizable Dreidel and Menorah Maker on CADit and make it a family experience!
